

COTTON HERITAGE

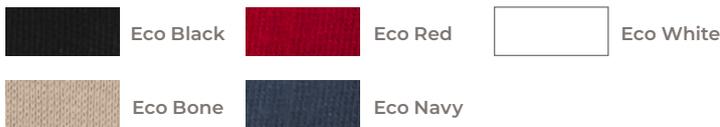

ECO ESSENTIALS

A NEW TEE EXPERIENCE

PREMIUM FEEL, 100% RECYCLABLE MATERIALS

SUSTAINABILITY THAT MAKES SENSE

The Eco Essentials Tee is engineered with 60% regenerated cotton (post-industrial fabric waste) and 40% recycled polyester (post-consumer PET), transforming recycled materials into dependable, high-quality apparel that delivers premium sustainability — while offering meaningful margin opportunity.

MR1085 ECO ESSENTIALS TEE

	XS	S	M	L	XL	2XL	3XL
Chest Width	16	18	20	22	24	26	28
Body Length	27	28	29	30	31	32	33

FABRIC

5.5 oz. (185 GSM), 60% Regenerated Cotton / 40% Recycled Polyester

FEATURES

Unisex, mid-weight, crew neck, standard fit, soft hand, 1" folded double-needle hems, reinforced neck-rib with a single-needle topstitch, sustainable fiber blend, smooth surface for superior printability.

LABEL

Tear-away label made from recycled materials.

SUSTAINABLY REGENERATED. RESPONSIBLY MADE. VALUE WITHOUT COMPROMISE.

Our unique regeneration process allows you to offer a responsibly made product at a competitive price point — without sacrificing hand feel or print performance.

ECO ESSENTIALS UNISEX TEE - MR1085

Why Regeneration Matters

We start with post-industrial colored cotton fabric scraps — cutting remnants that would otherwise go to waste. Those fibers are:

Because the cotton fibers retain their original color, no additional dyeing process is required. And the recycled polyester component is colored using a waterless process.

THE RESULT:

- Significant reduction in water usage
- No conventional dyeing chemical
- Lower energy consumption
- A cost-efficient manufacturing process

FABRIC & FEEL

- 5.5 oz / yd² (185 GSM)
- 20s yarn
- 60% Regenerated Cotton / 40% Recycled Polyester
- Fine knit construction for excellent stretch & recovery
- Final soft wash for a smooth surface and soft hand
- Breathable comfort with added durability and shape retention

CONSTRUCTION DETAILS

- Reinforced rib collar for long-term neck stability
- Single-needle topstitch at neckline
- Shoulder-to-shoulder back neck tape
- 2-needle chainstitch construction for added durability
- 1" folded double-needle hems for a clean, premium finish

PACKAGING & FINISHING

- Tear-away label made from recycled materials
- Packed in recycled blister polybags (12 pieces per printer's fold)
- 72 pieces per carton

RECOMMENDED IMPRESSION METHOD

Screen Printing:

- Performs well with plastisol and water-based inks. Poly-blocker recommended reducing dye migration risk.

OTHER PRINTING OPTIONS

DTG:

- Testing with a pre-treatment for the poly-portion is recommended for predictable results.

DTF:

- Requires careful heat management to balance print durability with fabric protection. Test printing on PET film with white ink suggested.

Discharge:

- Will affect cotton fibers only. Final appearance will vary depending on garment color and artwork.
